The Federation of Monroe County Environmentalists (FMCE)

is concerned about rapidly disappearing green space and wildlife habitat in this region. We support responsible growth and development through informative public forums as well as communications with elected officials. We believe that informed citizens and decision makers will make better choices within our community while embracing balanced, sustainable development. Preserving and protecting environmental integrity benefits every citizen, now and in the future.

FMCE is a broad alliance of green groups and individuals that speak with a united voice.

- ⌘ supporting protection of our land and water resources
- ⌘ supporting preservation of farmland, open space, and wildlife habitat
- ⌘ supporting regional cooperation and planning
- ⌘ supporting development of regional public and alternative transportation

FMCE Mission

The Federation of Monroe County Environmentalists (FMCE)

- Facilitates communication among environmental groups
- Provides a central forum for local organizations to discuss issues, prioritize actions, and enlist wider support
- Presents positions to the public and to elected officials on issues vital to achieving a balance between environmental preservation and regional development

Members include:

Adirondack Mountain Club: Genesee Valley Chapter (ADK), Allen's Creek/ Corbett's Glen Preservation Group (ACCGPG), Burroughs Audubon Nature Club (BANC), Center for Environmental Initiatives (CEI), Center for Sustainable Living (CSL), Genesee Valley Audubon Society (GVAS), League of Women Voters (LWV), Living in Harmony (LIH), People for Parks (PFP), Reconnect Rochester/ Rochester Rail Transit Committee, Rochester Birding Association (RBA), Rochesterians Concerned About Unsafe Shale-gas Extraction (R-CAUSE), Seeking Common Ground (SCG), Sierra Club: Rochester Regional Group, and Trout Unlimited (TU).

FMCE Activities

- Presenting *public forums* to inform citizens and urge action on issues that include:
 - Land use
 - Water resources
 - Energy alternatives
 - Invasive species
 - Agriculture
 - Hydrofracking
 - Biofuels
- Organizing efforts to preserve environmentally sensitive areas, green space, wildlife habitat and water resources
- Participating in the Master Plan process of County Parks and urging appropriate use of public parks
- Hosting monthly meetings to share information, collaborate and strategize citizen action on regional environmental priorities

See our website for current activities, environmental alerts, pertinent links, reference documents, and more.
